About Myself :

Hi..I'm Hemalatha.M I Am Doing 2 Year Bsc.Computer Science In Chithambaram Pillai College For Womens. I Am Proficient In Programming Languages Such As HTML, CSS, JAVASCRIPT, PYTHON, C++. My Academic Journey And Personal Projects Have Provided Me With A Strong Foundation.

Work Experience

Technologies Used: HTML, CSS, JavaScript

Build a calculator :

Developed a functional and responsive web-based calculator capable of performing basic arithmetic operations such as addition, subtraction, multiplication, and division.

The calculator was designed with a user-friendly interface, providing seamless interaction and immediate feedback for calculations.

Technologies Used: HTML, CSS, JavaScript

Build a Digital-clock :

Developed a fully functional and visually appealing digital clock application that displays the current time in hours, minutes, and seconds, with real-time updates.

The clock features a clean and modern design, and was implemented using HTML, CSS, and JavaScript to ensure an interactive and responsive user experience
